

PRODUCTIVITY RISING, EXCEPTIONAL PERFORMANCE, SMOOTH OPERATIONS.....

The new profoundly different kind of service provider.

NDI have partnered with TenderTap - Contracts and Tenders, in order to provide you, our members, with access to a constant flow of new business opportunities.

Our chosen partner is the leading UK provider of tender matching solutions and facilities and has been for over 12 years.

The TenderTap team, through local, UK, European and US federal sources, continuously gather and process an incredible amount of tender data. Their sources include newspapers, websites, opportunity portals and opportunity feeds including the OJEU and the United States Federal government. 8000 tender opportunities are harvested each week, to the estimated value of £2trillion annually.

The NDI Trading Post

The Trading Post was developed for NDI by TenderTap.

The on-line tender search facility allows NDI members access to sector relevant channelled tender opportunities. The Trading Post is the gateway to thousands of contracts and tenders that you may not have previously been aware of, or had access to.

Open Opportunities

At work for NDI, TenderTap services will enable you to reach the information you need to win the most profitable contacts and tenders. The Trading Post provides NDI members with unlimited access to thousands of sourced open contracts and tenders.

Market Analysis

The service also provides a Market analysis tool.

- Purchaser analysis Want to know who buys what, from whom and for how much? Well now you can. This powerful and unique facility gives you the power to discover market trends and find out who is issuing and awarding opportunities.
- Supplier analysis Do you know which opportunities your competitors are winning? How about how much they are getting paid? The archive goes back six years, giving you the power to identify growing and declining market players.
